

### Automotive Lamps Black Rubber Plugs

KINGTOM is a major manufacturer and supplier of rubber products in China. Lamps Black Rubber Plugs and lamp body assembly, simple assembly, stable and reliable seal, not easy to failure, completely solve the air tightness and water tightness of the lamp high risk phenomenon, improve the quality of the lamp; And occupy a small space, easy to arrange replacement.

KINGTOM is a major manufacturer and supplier of rubber products in China. **Lamps Black Rubber Plugs** and lamp body assembly, simple assembly, stable and reliable seal, not easy to failure, completely solve the air tightness and water tightness of the lamp high risk phenomenon, improve the quality of the lamp; And occupy a small space, easy to arrange replacement.

#### Product Parameter of the Automotive Lamps Black Rubber Plugs:

- ①Product name: **Automotive Lamps Black Rubber Plugs**
- ②Material: EPDM NBR Silicon or Can Custom
- ③Logo: Can Custom
- ④Size: Can Custom
- ⑤Can Custom: Black or custom
- ⑥Application: Automotive
- ⑦Certifications: IATF16949 ,ISO14001:2015,ROHS,CMC, etc
- ⑧Delivery: 30 -50days after sample confirmation
- ⑨Sample: 25-30 days
- ⑩Payment: 30% deposit, 70% payment before shipment
- ⑪Package: PE bags, Cartons,Pallet
- ⑫Payment Terms: T/T,L/C and so on.
- ⑬Shipment Way: Vessel,Air,Express etc.

#### Product Feature AND Application of the Automotive Lamps Black Rubber Plugs:

The **black rubber plugs** for car type of auto lamps and lanterns is pressed, including the base of auto lamps and lanterns, the line is pressed, the base of the auto lamps and lanterns is provided with a line hole, the line hole is provided with an annular clamp; The outlet

force is provided with a wire perforation; The wire perforation is provided with a wire holding thread; The top of the forced line extends outward to form an annular fixing plate; The outer wall of the outlet line is provided with an annular two-way slope; An annular clamping groove is arranged between the annular fixing plate and the annular bidirectional slope; The annular clamping groove clamping is arranged on the annular clamping rib. It can improve the waterproof problem of lamps and lanterns and reduce the cost.
